

## THE HOME RULE BILL

Expected to be the Subject of Hot and Heavy Debates.

IT IS TO BE INTRODUCED EARLY.

A Law to Restrict Pauper Immigration to Great Britain will also be Asked for—A Labor Bureau Modeled after that at Washington will be Established—Mr. Gladstone's Health Causes Solitude.

LONDON, Jan. 22.—All the party leaders have issued "whips," exhorting their followers to be unremitting in their attendance to their parliamentary duties during the coming session. Lord Salisbury and Arthur J. Balfour, formerly first lord of the treasury, emphasizes the statement that it is of the utmost importance for every unionist to be in his place early and constantly, as the home rule bill will be introduced shortly after the opening, and heavy and hot debates are to be expected from the beginning.

At a prolonged cabinet meeting yesterday the ministers discussed the legal aspects of the home rule bill. Sir Charles Russell, attorney general, and Lord Perchell, lord high chancellor, who previously had not attended the cabinet meetings, were present and gave their opinions at length.

TO RESTRICT IMMIGRATION.  
The Right Hon. James Lowther has been selected to move the amendment of the address. He will ask that immediate steps be taken to legislate against pauper aliens. Legal restrictions of pauper immigration have been advocated by unionist newspapers for many months, and especially since the expulsion of Anarchists from France last spring swelled the Anarchist colony with hundreds of indolent and penniless agitators.

A new department devoted to the interests of labor is to be formed on the lines suggested by Professor Gould, who recently was before the royal labor commission. These lines conform generally with those followed by the labor bureau in Washington. Rather unexpectedly the treasury has allowed a handsome sum for the organization of the bureau. Tom Mann was at first regarded as the prospective

HEAD OF THE NEW BUREAU, and may still believe that he will accept the office despite his assertion that he prefers to remain where he is, as he will be better able to advance workingmen's interests if not an incumbent of a government office.

Mr. Gladstone has received hundreds of letters in the last few days and scores of callers making inquiries as to the state of his health. His reports that he is failing have caused great solicitude and some alarm among his personal friends and the advocates of Home Rule. To dispel all doubts he walks and drives frequently in the parks, besides sending out occasional denials that he is feeling less strong and energetic than formerly.

There is general apprehension among liberal Englishmen, however, that their Prime Minister is not so well as he and his friends would make the world believe. It is impossible to verify these apprehensions, as Mr. Gladstone is very closely guarded by his family and nearest friends, and only personal and political intimates are able to gain access to him.

TELEPHONE PATENTS EXPIRING.  
The Fundamental Patent Ends in March and Others Soon After.

CHICAGO, Jan. 22.—One by one the patents covering telephone rights are expiring. At midnight last night the Blake transmitter, which receives the speech and transmits it over the wire, became the property of the public after many years' exclusive control by the American Bell Telephone Company. March 7 of this year will see the end of the main patent on the telephone, that issued to Alexander Graham Bell, and which covered the fundamental patent on the telephone, the transmission of speech electrically over a wire. At the same time the patent first issued on the receiver will expire, though a second patent was granted on this device January 30, 1877, and that has until January 30 of next year to run.

With the expiration of the Bell patent the telephone business is promised many rivals. The Strowger Automatic Telephone Company is one of the companies which promises competition with its automatic switch-board, that is designed to do away with the central office of the present system.

A Corpse Held for Expenses.  
NORTHEAST, Pa., Jan. 22.—Fred Koch committed suicide in the summer of 1886 by eating Paris green. The body was taken from a vacant lot to the undertaking establishment of a man named Burton. Burton expected that the expenses would be borne by relatives. This was not done, however, and the body, which had been embalmed, was placed in a back room, where it has remained for six years. A few days ago the body, which had assumed the appearance of a mummy, was ordered to be placed in a cheap coffin and buried on the almshouse farm.

Married a Dancer.  
LONDON, Jan. 22.—A sensation has been caused in Irish circles by the announcement that T. B. Curran, M. P., has been privately married at the registry office in Manchester to an Australian danseuse, Marie Brooks, who is playing the principal part of a boy, in a local pantomime. Mr. Curran is about 22 years of age and is the youngest member of the house of commons. He is the son of T. Curran, M. P.

The Post of Honor or Nothing.  
RICHMOND, Va., Jan. 22.—Colonel William F. Wickham, of the First Virginia regiment of cavalry, received a letter from General McMahon, of New York, declining to give the regiment the post of honor at the inaugural ceremonies of President-elect Cleveland. He says it is customary to grant that post to the Washington military, and this course will be pursued in March. Wickham's regiment will not go to Washington.

The Corning Murderer Acquitted.  
ELMHURST, N. Y., Jan. 21.—The Frost murder trial at Bath came to a close at midnight last night, when the jury rendered a verdict of not guilty.

Frost was indicted for killing Daniel Donoghue, a member of the American First Class Workers' Union, at Corning, last August. The evidence went to show that Frost, who was a non-union member, committed no murder, fearing his own life.

## A CHILD BURNED TO DEATH.

And a Woman Meets the Same Fate in a Heroic Effort to Rescue Him—Four Dwellings Burned in Pittsburgh Yesterday.

PITTSBURGH, Pa., Jan. 22.—Mrs. Kate Roster, a widow, aged twenty-five years, and George Roster, her nephew, aged six years, were burned to death this morning in a fire which consumed four dwellings on Salisbury street, in the Thirty-seventh ward. Four others, John Fetterlein, Mrs. Margaret Fetterlein, his wife and Sophia and Barbara, his daughters, were seriously burned, and narrowly escaped a fate similar to the two first named.

The cremation took place in the house of John Fetterlein, a German, aged fifty-five years, whose house, with three others adjoining, is situated at the extreme southeast corner of the city, in a hollow, difficult of approach from any side.

Fetterlein operates a dairy and is assisted in the work by his wife and daughters, one of whom was Mrs. Roster, who has made her home with them since the death of her husband a year ago.

The family arose about 5:30 o'clock this morning, and repaired to the stable to attend the cows, leaving George Roster, the child, in bed in the house. A few minutes later flames were seen issuing from the kitchen, and before anything could be done the house was ablaze.

Mrs. Kate Roster rushed up stairs to get the boy and was never seen again. One by one the other members of the family attempted to rescue the two, but they were driven back by the smoke and fire, and after all had been seriously burned the task was given up.

On account of the lack of water facilities the flames spread rapidly and communicated to the adjoining houses, occupied by George Fetterlein, John Mahoney and John Roster, entirely destroying them.

The bodies of the two victims were recovered this afternoon, but they were burned beyond recognition.

An alarm was sent in as soon as possible after the fire started, but owing to the inaccessibility of the houses, the fire department was unable to render any assistance.

The members of the Fetterlein family, although painfully burned, will all recover.

The pecuniary loss was \$6,500. The origin of the fire is not known.

Delbrugge vs. Grant Jackson; judgment set aside and reset for January 30.

## A World-Famed Institution.

From the Buffalo Sunday News.

Dr. Ray Vaughn Pierce, famous among the benefactors of the age, established himself in Buffalo in 1867, and having acquired a world-wide reputation in the treatment of chronic diseases, he exceeded his individual ability to conduct, he several years ago induced several medical gentlemen of high professional standing to associate themselves with him as the faculty of the World's Dispensary, the consulting department of which has since been merged into the Invalids' Hotel and Surgical Institute. This organization is incorporated with a capital of \$150,000, and its officers are Dr. Ray V. Pierce, president; Lee H. Smith, M. D., vice president; Dr. T. H. Callahan, treasurer; V. Mott Pierce, secretary and general manager.

The two buildings owned by the World's Dispensary Medical Association have frontages on Main and Washington streets and are connected. The Invalids' Hotel and Surgical Institute occupies a five-story brick building, 175x150 feet, and is not to be classed with hospitals, but is

A PLEASANT REMEDIAL HOME, exclusively devoted to the treatment of chronic diseases, having a staff of fourteen physicians and surgeons, with skilled nurses in attendance. The World's Dispensary, occupying the immense six-story building, 175x150 feet, at 680 to 670 Washington street, is used for the manufacture of Dr. Pierce's standard family medicines: Dr. Pierce's Golden Medical Discovery, Dr. Pierce's Favorite Prescription, Dr. Pierce's Pleasant Pellets and Dr. Pierce's Compound Extract of Smart-Weed, also Dr. Sage's Catarrh Remedy.

The basement is occupied by the shipping department. The large advertising, mailing and counting-room department occupy the main or second floor; third floor, printing and binding department; fourth floor, drug mills and paper warehouses; fifth floor, bottling, wrapping and packing department; sixth floor is occupied by one of the best planned laboratories in the country, in charge of a thoroughly scientific chemist, a graduate of Harvard Medical School.

THE MAIL MATTER of this enormous establishment amounts to from 30,000 to 40,000 pieces daily, postage alone costing \$100,000 a year. More than half a million dollars is spent each year in advertising the proprietary medicines in all the newspapers and periodicals of the country—for Dr. Pierce believes in advertising and in making the public thoroughly familiar with the names and qualities of his standard remedies. A branch establishment (the only one) is conducted at 3 New Oxford street, London.

Dr. Ray V. Pierce is a native of New York state and a graduate of the Cincinnati Medical College. He has been honored by his fellow citizens by election to a seat in the state senate and in Congress, and he is president of the American Engine Company, of Bound Brook, N. J. His son, Dr. Valentine Mott Pierce, is a graduate of Harvard University and Buffalo University Medical Department, and Dr. Smith, vice-president, is a graduate of Buffalo University and College of Physicians and Surgeons, New York.

## A BANDIT LEADER

Captured in Texas, with Papers of an Important Character—Direct Testimony Against Him.

LAREDO, TEX., Jan. 21.—Pablo Gomez, second in command of the party who committed recent outrages in violation of the neutrality laws in the lower country, was arrested in this city this morning by United States Deputy Marshals Yglisis and E. F. Hally.

The marshals were accompanied by Special Deputy Marshal Benavides, one of the officers who was recently captured by the revolutionists in the lower country while escorting a prisoner to this city. As soon as Benavides saw Gomez he recognized him as one of the party who had captured him and also as a leader of the bandits who threw his carbine down on him and ordered him to surrender. Benavides also says that Gomez on several occasions, while he and his companion, Special United States Deputy Guerrero, were in charge of the revolutionists, advised the revolutionists to kill them, stating that those whose lips were closed in death could never bear witness against the living.

Papers were captured on Gomez and in the house where he was found which will throw light on the recent outbreak, but the officers do not care to disclose their contents. Among the number is a piece of poetry, dedicated to Gomez, relating in verse the recent engagements in Mexico, and praising various members of the party who crossed to the Mexican side of the river and engaged therein. The officers are highly elated at the capture.

## Alive with a Broken Neck.

RAY CITY, Jan. 21.—Peter Brinkenstein, of this city, is suffering with a broken neck, but the attending physician thinks he will recover. Brinkenstein was night watchman in a box factory, and having occasion last Saturday night to climb to a steam pipe over the boilers, he fell, striking on his head. He remained insensible for some time, and upon recovering found himself unable to move his head.

He walked home, however, and has remained there ever since. Physicians who have examined Brinkenstein say that two of the vertebrae of the spinal column are broken.

## A Cold Exhibit of Cheek.

To the Editor of the Intelligencer.

Sir:—It is cold—thermometer way below zero, heavy coat of snow, icy winds and all the disagreeableness attendant upon Democratic control of the state, but the Charleston Gazette of the 18th, on its fourth page, under the caption "They Both Get In," uncovers a colder depth and a vast expanse of frigid cheek.

MacCorkle stated that he believed this country had seen the last election with negroes at the polls.

Apparently Democratic ascendancy means much more than appears on the surface.

You can draw your own inferences and make your comments.

Yours sincerely,  
J. W. M. APPLETON.
